

CSS Grid

The page layout container for us all

Alumni presentation 4/29/2018

About

Layout containers

Table

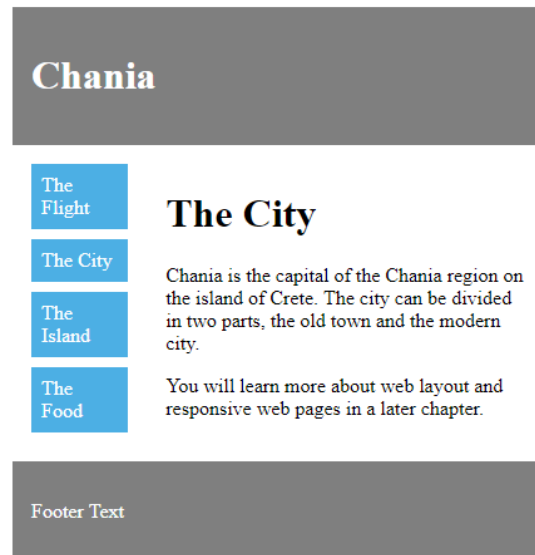

- Proper use
 - data formatting
 - static layout
- Technical debt
 - manual rearrangement
 - lots of CSS

Firstname	Lastname	Age
Jill	Smith	50
Eve	Jackson	94
John	Doe	80

```
<style>
table, th, td {
    border: 1px solid black;
    border-collapse: collapse;
}
th, td {
    padding: 15px;
    text-align: left;
}
</style>
</head>
<body>
<table style="width:100%">
  <tr>
    <th>Firstname</th>
    <th>Lastname</th>
    <th>Age</th>
  </tr>
  <tr>
    <td>Jill</td>
    <td>Smith</td>
    <td>50</td>
  </tr>
  <tr>
    <td>Eve</td>
    <td>Jackson</td>
    <td>94</td>
  </tr>
```

Floating divs

- Proper use
 - smaller blocks
- Technical debt
 - learn float and clear
 - tied to flow of document

```
* {
    box-sizing: border-box;
}
.header, .footer {
    background-color: grey;
    color: white;
    padding: 15px;
}
.column {
    float: left;
    padding: 15px;
}
.clearfix::after {
    content: "";
    clear: both;
    display: table;
}
.menu {
    width: 25%;
}
.content {
    width: 75%;
}
.menu ul {
    list-style-type: none;
    margin: 0;
    padding: 0;
```

Multiple layouts & media queries

- Proper use
 - Unresolvable compatible design issues
- Technical debt
 - complexity, maintainability

```
/* For desktop: */  
.col-1 {width: 8.33%;}  
.col-2 {width: 16.66%;}  
.col-3 {width: 25%;}  
.col-4 {width: 33.33%;}  
.col-5 {width: 41.66%;}  
.col-6 {width: 50%;}  
.col-7 {width: 58.33%;}  
.col-8 {width: 66.66%;}  
.col-9 {width: 75%;}  
.col-10 {width: 83.33%;}  
.col-11 {width: 91.66%;}  
.col-12 {width: 100%;}
```

```
@media only screen and (max-width: 768px) {  
  /* For mobile phones: */  
  [class*="col-"] {  
    width: 100%;  
  }  
}
```

Flexbox

- give a container the ability to alter its items' width, height and order
- Proper use
 - one dimensional layout
 - menus
 - row of items

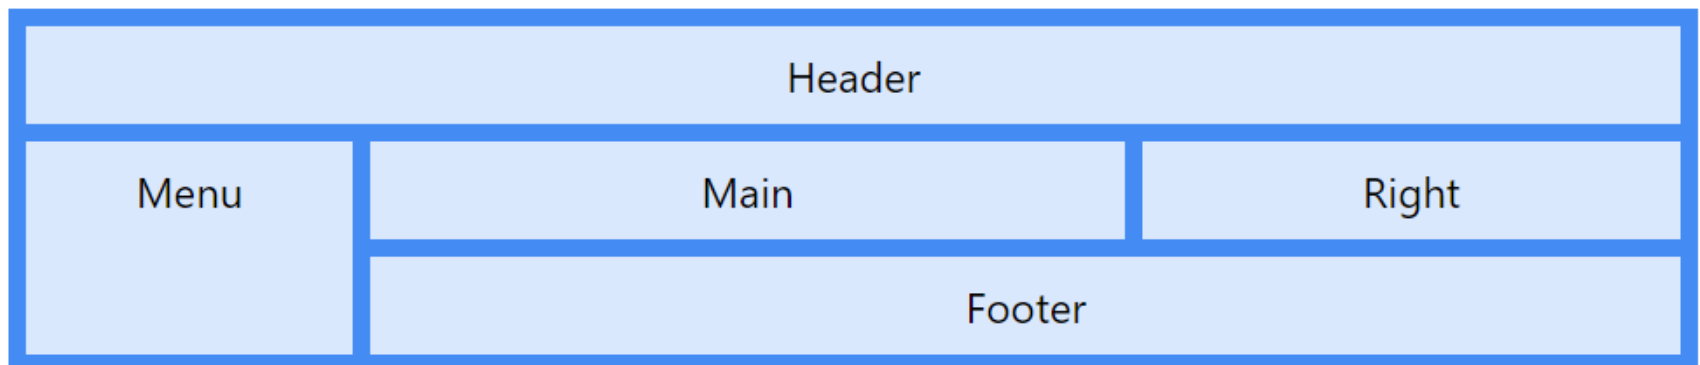

```
.flex-container {  
  display: flex;  
  height: 300px;  
  justify-content: center;  
  align-items: center;  
}
```

CSS Grid

- In browsers March 2017
- best for 2-dimensional whole page layouts
- real grids not tables
- less media queries

Compatibility

- All current browsers except
 - IE
 - UC Browser
- Applying other formatting will be discarded if grid can be applied
 - display: table-cell
 - flexbox
 - multi-column display

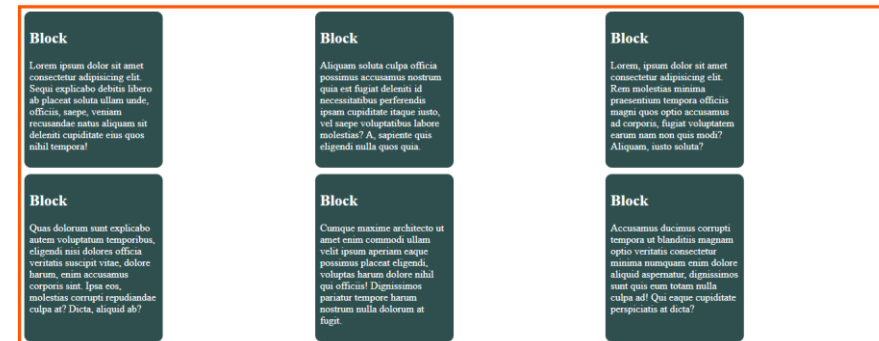

Grid HTML & CSS

Container

- Grid CSS (the container)
 - `display: grid;`
 - fixed-width items are spaced out
 - `display: inline-grid;`
 - container collapses around fixed-width items
 - subgrid removed to Level 2 - nested grid follows parent specs
 - `display: contents` - removes container box

Cells

- Grid items (cells)
 - all children become grid items
 - items expand to fill column width if not constrained

Block Lorem ipsum dolor sit amet consectetur adipisicing elit. Sequi explicabo debitis libero ab placeat soluta ullam unde, officii, saepe, veniam recusandae natus aliquam sit deleniti cupiditate eius quos nihil tempora!	Block Aliquam soluta culpa officia possimus accusamus nostrum quia est fugiat deleniti id necessitatibus perferendis ipsam cupiditate itaque iusto, vel saepe voluptatibus labore molestias? Rem molestias minima praesentium tempora officii magni quos optio accusamus ad corporis, fugiat voluptatem earum nam non quas modi? Aliquam, iusto soluta?
Block Quas dolorum sunt explicabo autem voluptatum temporibus, eligendi nisi dolores officia veritatis suscipit vitae, dolore harum, enim accusamus corporis sint. Ipsa eos, molestias corrupti repudiandae culpa at? Dicta, aliquid ab?	Block Cumque maxime architecto ut amet enim commodi ullam velit ipsum aperiam etque possimus placeat eligendi, voluptas harum dolore nihil qui officii! Dignissimos pariatur tempore harum nostrum nulla dolorum at fugit.	Block Accusamus ducimus corrupti tempora ut blanditiis magnam optio veritatis consectetur minima numquam enim dolore aliquid aspernatur, dignissimos sunt quis eum totam nulla culpa ad! Qui etque cupiditate perspiciatis at dicta?

Gaps

- Grid gap CSS
 - grid-column-gap #
 - grid-row-gap #
 - grid-gap cr#
 - grid-gap c# r#

Columns and rows

- Grid columns CSS - 4 columns
 - grid-template-columns: auto auto auto auto
 - grid-template-columns: # # # #
- Grid row height CSS - format as you need
 - grid-template-rows: 80px 200px;
 - other rows based on content

Item absolute placement - lines

- three columns = 1 cell 2 cell 3 cell 4
- grid-row: 1; grid-column: 2;
- Spans
 - grid-row-start: 1; grid-row-end: 4;
 - grid-column-start: 2; grid-column-end: 4;

Block

Aliquam soluta culpa officia possimus accusamus nostrum quia est fugiat deleniti id necessitatibus perferendis ipsam cupiditate itaque iusto, vel saepe voluptatibus labore molestias? A, sapiente quis eligendi nulla quos quia.

Block

Lorem ipsum dolor sit amet consectetur adipisicing elit. Sequi explicabo debitis libero ab placeat soluta ullam unde, officiis, saepe, veniam recusandae natus aliquam sit deleniti cupiditate eius quos nihil tempora!

Item absolute placement - lines

- Span shortcuts
 - grid-row: 1 / 4; grid-column: 2 / 4;
 - grid-row: 1 / span 3; grid-column: 2 / span 2;
- Shortcut
 - grid-area: 1 / 2 / 4 / 4

Block

Lorem ipsum dolor sit amet consectetur adipisicing elit. Sequi explicabo debitis libero ab placeat soluta ullam unde, officiis, saepe, veniam recusandae natus aliquam sit deleniti cupiditate eius quos nihil tempora!

Block

Aliquam soluta culpa officia possimus accusamus nostrum quia est fugiat deleniti id necessitatibus perferendis ipsam cupiditate itaque iusto, vel saepe voluptatibus labore molestias? A, sapiente quis eligendi nulla quos quia.

Block

Aliquam soluta culpa officia possimus accusamus nostrum quia est fugiat deleniti id necessitatibus perferendis ipsam cupiditate itaque iusto, vel saepe voluptatibus labore molestias? A, sapiente quis eligendi nulla quos quia.

Block

Aliquam soluta culpa officia possimus accusamus nostrum quia est fugiat deleniti id necessitatibus perferendis ipsam cupiditate itaque iusto, vel saepe voluptatibus labore molestias? A, sapiente quis eligendi nulla quos quia.

Block

Aliquam soluta culpa officia possimus accusamus nostrum quia est fugiat deleniti id necessitatibus perferendis ipsam cupiditate itaque iusto, vel saepe voluptatibus labore molestias? A, sapiente quis eligendi nulla quos quia.

Wireframing - content reference

- A - logo
- B - company name
- C - login
- D - nav bar
- E - main content
 - G - posts
 - H - ads
- F - footer

Item absolute placement - names

- Use names instead of numbers
- Name rows / columns
 - grid-template-columns: [c1] auto [c2] auto [c3] auto [c4 sidebar-column] auto [c-end];
 - grid-template-rows: [r1 header-row] auto [r2] auto [r3] auto [r4] auto [r-end];
- Multiple names are separated by spaces

Item absolute placement - names

- Repeated names
 - repeat(7, [row-start] 1fr [row -end])
 - row-start **row** row-end row-start 2 **row** row-end 2 row...

fr

- fractional measurements divide up unused parts
 - 1fr 1fr 1fr 1fr
 - 1fr 2fr 3fr 1fr
 - 20% 2fr 3fr 1fr
 - 20% 40% 2fr 2fr
 - 200px 2fr 2fr 2fr

Columns and rows – repeat()

- repeat(# of times, units to use)
- grid-template-rows: repeat(...)
- grid-template-columns: repeat(...)
- grid-template-columns: repeat(3, 1fr)
- grid-template-columns: 2fr repeat(3, 1fr) 2fr

minimum / maximum sizing

- `grid-template-rows`, `grid-template-columns`
- `minmax(minimum size of track, maximum size of track);`
- `auto` = expand with content
- used as one size argument
- `minmax(100px, auto) 2fr 1fr`
- `1fr minmax(auto, 50%) 1fr`

Responsive

- Media queries
- Start small
- Use min-width as you increase

```
/* Responsive layout */
/* smallest sizes first */
.responsive {
    grid-template-columns: auto;
    grid-template-areas: "header" "nav" "main" "aside" "footer";
}
@media screen and (min-width: 550px) {
    .responsive {
        grid-template-columns: minmax(20%, 200px) auto;
        grid-template-areas: "header header" "nav main" "aside aside" "footer
        footer";
    }
}
@media screen and (min-width: 767px) {
    .responsive {
        grid-template-columns: minmax(20%, 200px) auto minmax(20%, 200px);
        grid-template-areas: "header header header" "nav main aside" "nav main
        aside" "nav footer footer";
    }
}
```

Queries targeting a maximum width.

Queries targeting widths within a range.

Queries targeting a minimum width.
